EDUCATION

- woxsen university | Bachelor of technology |Hyderabad|2022 - 2026 |CGPA - 3.43
- Sri Chaitanya Junior College | Guntur2020-2022 |Intermediate - 86.5%
- Bhashyam High School |Guntur| 2019-2020| 10TH - 97.5%

TECHNICAL SKILLS

- **Programming & Data:** Python, Java, JavaScript, SQL, Data Structures & Algo
- **AI / ML**: Scikit-learn, TensorFlow, Keras, NLP, Model Evaluation, Feature Engineering,Prompt Engineering, GENAI
- **Data Visualization & Analytics:** Matplotlib, Seaborn, Dashboard Design, Power Bi
- **Web & SaaS Technologies:** HTML5, CSS3, Node.js, Express.js, React.js,REST APIs, API Integration
- **Cloud & DevOps:** AWS, Docker, Azure DevOps
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, Jupyter Notebook, OpenCV
- **Computer Vision**: OpenCV, Image Processing, Object Detection (YOLO – learning)

CERTIFICATIONS

- Core Java – Coursera
- Cloud Virtualization, Containers and APIs-Coursera
- Programming, Greedy Algorithms-Coursera

PROFESSIONAL SUMMARY

Motivated and innovation-driven Computer Science professional with strong expertise in software development, machine learning, and full-stack web technologies. Demonstrated ability to design and implement intelligent solutions—from predictive analytics to dynamic web applications. Passionate about driving digital transformation by leveraging data, cloud technologies, and modern development practices to solve real-world business challenges.

KEY PROJECTS

Stock Market Prediction – Python, Data Visualization, Machine Learning
January - March 2025

- Built a hybrid model combining LSTM for time series trends and XGBoost for feature-based prediction.
- Engineered key features like moving averages, lag values, and returns for improved input quality.
- Enhanced accuracy by leveraging LSTM's sequential learning with XGBoost's residual correction , achieving an overall prediction accuracy of 92%.

Budget Mangment System - HTML, CSS, JavaScript, Mongo db
August - November2024

- Developed a comprehensive budget management platform that helps users effectively track and manage their finances.
- Designed customizable budgeting plans, allowing users to tailor financial goals and spending limits according to their specific needs.
- Implemented a user-friendly interface with intuitive dashboards for easy tracking, expense categorization, and financial insights.

E-Commerce Web Application - HTML, CSS, JavaScript, PHP
January -March 2024

- Developed a feature-rich e-commerce website to highlight top products and streamline user navigation.
- Crafted a responsive and user-friendly interface for optimal performance across all devices.
- Implemented PHP and SQL-based backend systems to manage dynamic content, facilitate secure transactions, and update inventory in real-time.

Unmasking Deception - Machine Learning, AI , Python
January - April 2024

- Engineered a deep learning-based news classification system utilizing NLP techniques to boost accuracy and enable real-time result display..
- Enhanced model performance through data profiling, large-scale analysis, and visual comparisons of traditional models vs. BERT, achieving an overall accuracy of 89%.

LANGUAGES

- English
- Hindi
- Telugu

INTERESTS

- Team Sports
- Sketching

SOFT SKILLS

- Teamwork and Collaboration
- Problem-Solving
- Critical Thinking
- Time Management

RESEARCH & PUBLICATIONS

- Researched on Mitigating Misinformation: A Comparative Analysis of Machine Learning Models for Fake News Detection. Atlantis Press Proceedings, DOI : 10.2991/978-94-6463-876-9_13
