Yoshith Velugu

ASPIRING ARTIFICIAL INTELLIGENCE DEVELOPER

Phone: +91 7780633309

Email: Yoshith.Velugu_2026@woxsen.edu.in

Github: github.com/yoshith25

LinkedIn:

https://www.linkedin.com/in/velugu-yoshith-262528252/

SKILLS

- **Languages**: Python, JavaScript, SQL
- **Web Technologies**: HTML5, CSS3, Node.js, Express.js, React.js
- **Machine Learning**: Scikit-learn, TensorFlow, Keras
- **Databases**: MySQL, MongoDB

Other : Problem Solving, Collaboration

EDUCATION

B.Tech, Computer Science, 2022- 2026

Specialization: Core

Woxsen University, India

CGPA: 2.5/4

INTERESTS

Competitive Coding

Tech Blogging/Reading

Team Sports

LANGUAGES

English

Hindi

Telugu

PROFESSIONAL SUMMARY

Innovative and driven Computer Science undergraduate at Woxsen University (Batch 2022–2026), with a strong foundation in full-stack web and mobile application development. Passionate about building secure, scalable, and impactful digital solutions, with experience in projects ranging from e-commerce and library management systems to phishing detection and AI-integrated platforms. Skilled in technologies like React, Flutter, Firebase, Docker, and MySQL, and well-versed in deploying machine learning models for real-world applications. Currently exploring game development with aspirations to build immersive open-world experiences. Demonstrated leadership in student-led tech initiatives and consistently committed to solving real-world problems through technology.

KEY PROJECTS

AI Tour Planner - React Native:

- Created an AI-powered travel planning app for personalized trip creation.
- Used advanced AI algorithms to analyze user preferences for tailored itineraries.
- Developed a user-friendly interface for easy navigation and enhanced usability.

***Tech Stack**: React Native, Firebase, Google Maps API, AI algorithm implementation, and API integration.*

Strategic Student Excellence Site:

- Developed a comprehensive digital platform to enhance student success through academic support, career development resources, and campus engagement tools.
- Designed dynamic and responsive user interfaces using HTML, CSS, and JavaScript with frameworks like React.js and Angular.
- Integrated Firebase Cloud Messaging (FCM) to deliver real-time notifications via email, SMS, and push notifications.
- Utilized MySQL for efficient database management, enabling secure storage and access to academic and event-related data.
- Built backend functionalities using PHP and JavaScript to support seamless user interactions and data transactions.

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL, XAMPP Cloud Messaging

phishing-attack-detection: AI-Powered Web Security Solution to Identify Malicious URLs and Emails.

- Designed and developed a machine learning-based system to detect phishing attacks across websites, emails, and URLs using a trained Random Forest model.
- Extracted and engineered features from URLs and email headers to build a robust classification model capable of distinguishing between phishing and legitimate inputs.
- Built a Flask backend to serve the trained model and process real-time predictions through a web interface.
- Developed a user-friendly frontend for scanning URLs or email content, displaying the threat level, and providing visual feedback.
- Achieved high accuracy on a dataset of over 11,000 entries, enhancing cybersecurity awareness and protection against common phishing vectors like smishing, spear phishing, and spoofed websites.

Tech Stack: Python, Flask, Scikit-learn, Random Forest, HTML/CSS, JavaScript, Pickle, Firebase

CERTIFICATIONS

AWS Certified Machine Learning
IBM Full Stack Developer –
Coursera Professional Skills For the Workplace - Coursera

Soft Skills

- Strong Communication Skills Multitasking and Time Management
- Ability to Work Under Pressure Adaptability to New Technologies
- Problem-Solving and Analytical Thinking
- Leadership and Team Collaboration
- Quick Learner with a Growth Oriented Mindset

RESEARCH & PUBLICATIONS

- Co-authored research on lightweight ML models for edge computing. *International Journal of Emerging Trends in Engineering Research (IJETER), Vol. 12, Issue 3, March 2025*

ACHIEVEMENTS

- Class Representative – B.Tech CSE (AI & ML), 2023–2024
- Core Member – Developer Student Club (DSC), Woxsen University
- First Runner Up, 24 hr coding hackathon, Innoverse 2024
- Solved **40+** problems on LeetCode
- Recipient of the prestigious Kishore Vaigyanik Protsahan Yojana (KVPY) Fellowship
- Awarded National Talent Search Examination NTSE scholarship by NCERT, Govt. of India
